

DIGITALE INTEGRATION

Wir nehmen jeden mit

Let's go on a journey into the digital world. We love to give you a ride!

You use social media, but you have trouble writing an email?
You are having difficulties using a smartphone, a tablet or a computer?
You never became familiar with those "tech stuff"?

Good thing, you found us! We're going to help you.

You can tell us, what you want or need to learn and we are going to pick you up, where you stand, going on the journey in the digital world. You can determine the speed.

There are no exams and there is no group pressure. We are making an individual timetable for you. The lessons take place in our offices in the city Mainz, but we are flexible to give lessons for example in a coffee shop (with internet) or by videoconference call (e.g. Zoom or Teams). You choose.

We teach in German, English, Turkish, Arabic, Kurdish and Persian.

And it's free. Sounds unbelievable? It is not!

We think you are important, and we would love to take you with us in the digital society.
Get on board with us!

Just call us: **06131 - 588 23 46**. In case we are just swabbing the deck (teachings or meetings), please leave a message. We are getting back to you a.s.a.p.
Ahoy!
